SUMMARY

Third-year Information Technology student at University of Greenwich Vietnam with strong interest in Software Engineering and CRM systems. Familiar with Java, JavaScript, and Salesforce CRM fundamentals. Experienced in building web-based CRM projects and eager to learn backend/frontend development in a professional environment. Hardworking, fast-learning, and available for full-time internship opportunities.

PROJECT

Salesforce CRM Demo System

Personal Project • cedar-salesflow-crm.netlify.app/ • May 2026 – Present

- Developed a CRM-style web application inspired by Salesforce CRM workflows and business management systems.
- Designed responsive UI using JavaScript and modern web technologies.
- Built CRM-related modules and implemented workflow features.
- Explored Salesforce CRM ecosystem and development workflows through hands-on implementation.
- Practiced software architecture and user management concepts.

Developer Portfolio Website

Personal Project • luphihung-dev.netlify.app/ • May 2026 – Present

- Designed and developed a responsive personal portfolio website to showcase projects, skills, and technical background.
- Built modern UI layouts using HTML, CSS, and JavaScript.
- Implemented responsive design for desktop and mobile devices.
- Deployed and maintained the website using Netlify.
- Improved frontend development skills and web deployment workflow understanding.
